Setting System Time

This operation must be done from the receptionist station only. The following instructions will allow you to set the date, day and time.

To set the date:

1. Place the handset on hook.
2. Press intercom #651.
3. Enter the date in YYMMDD format. Using a leading 0 for single digit month or day.
4. Press # to save and you will hear a confirmation tone.
5. Press speaker to end programming.

To set the time:

1. Place the handset on hook.
2. Press intercom #652.
3. Enter the time in hour/minute/second in 24-hour clock format HHMMSS.
4. Press # to save settings.

To set the day:

1. Place the handset on hook.
2. Press intercom #653.
3. Enter the day using the following chart.
 - 1 = Sunday
 - 2 = Monday
 - 3 = Tuesday
 - 4 = Wednesday
 - 5 = Thursday
 - 6 = Friday
 - 7 = Saturday
4. Press # to save.
5. Press the speaker to end programming mode.

Hint:

If these instructions do not work for your system, try entering the command again but leave off the # sign in front of the 651, 652, or 653 codes.
